

Sometimes a home needs a complete renovation which takes a little more planning and other times we do not reinvent the wheel, we give it a makeover. This QB issue illuminates the kitchen of a splendid Wynstone home, using current design trends, material and technology.

After comparing several remodeling companies, our client was drawn to Delta Renovations, Inc. through the ads in this publication and contacted Julie Gudvangen, President and Designer. Julie viewed the home and listened to their vision. She then presented a stunning design dressed in warm walnut and the latest in German technology. Using the entirety of the generous kitchen space, she provided an office area, wet bar and baking station and an island large enough to hold a feast and entertain a crowd. Hidden from view is the German designed shelving that utilizes every square inch of corner space, with self-closing drawers for easy access to bulky items while eliminating buried corners; a marvel in beauty and function.

Today this homeowner's kitchen embraces the beautiful landscape of their neighborhood both inside and out. Please join Delta Renovations, Inc. in welcoming this fabulous couple and their home into our renovation family.
