& Vice-President
Delta Renovations, Inc.*

Our featured clients have been working with Delta Renovations for almost 30 years, beginning with their first home when they had five young children. Now empty nesters, they moved into a smaller house that just needed some final touches and a home office.

As local business owners, our clients needed a space that could handle office dynamics, yet compliment their style. Little did they know how important this upgrade would be for the family and for the Company. Completed in February, the new office took on more importance than just a convenience. When the virus hit in March, it became ground-central.

Transitioning to work at home can be a challenge, but with the right tools in place it can be a dream come true. Appointed with charging stations, file drawers with smooth-quiet function, task lighting, and ample storage, the office is highly functional. To compliment the atmosphere, beautiful slab walnut cabinetry was used that is rich in color and contrast and welcomes anyone into the warm space.

We regard our clients as friends and part of the Delta family; a family that includes our loyal and talented subcontractors, Artisans, and elite tradespeople who make a job done with Delta Renovations, one that you will enjoy for years to come.
